Engaging employees is an enormous challenge for companies and their leaders, costing employers hundreds of billions of dollars annually in lost productivity and crippling innovation. Often CEOs and business owners are aware of the problem yet can't seem to increase the engagement levels of their employees. Corina understands first hand the impact that employee (dis)engagement can have on both the employee and the company. Corina changed jobs three times throughout her career in her search for an employer that was 'doing things differently'. In 2014 she gave up that search

to start her own company so she could help businesses and their leaders build happy, engaged workplaces.

In this passion-fuelled keynote, Corina Walsh will share stories and strategies from companies that are known for their outstanding workplace culture such as Roma Moulding, 360insights, AbbyShot Clothing and more. She will also discuss some of the common pitfalls that companies fall into in their effort to create a 'fun' place to work for their employees. Finally, Corina will take the audience through her 6-step framework from her book, *The Engaged Employee Blueprint*, to show companies how they can engineer their own amazing workplace culture. Attendees will understand how to accelerate employee engagement and create a workplace where their employees can't wait to come to work every day!
